

# 3. Enable Inveterate On Your Store

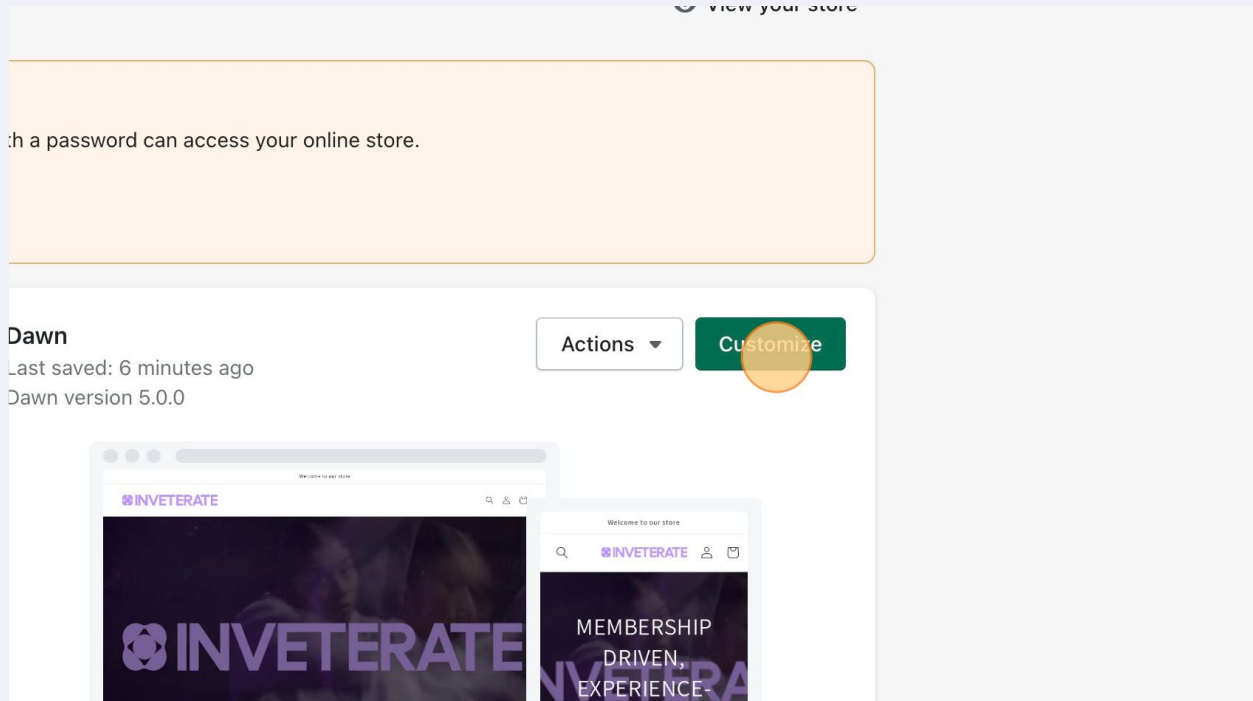

1 Navigate to your Shopify store

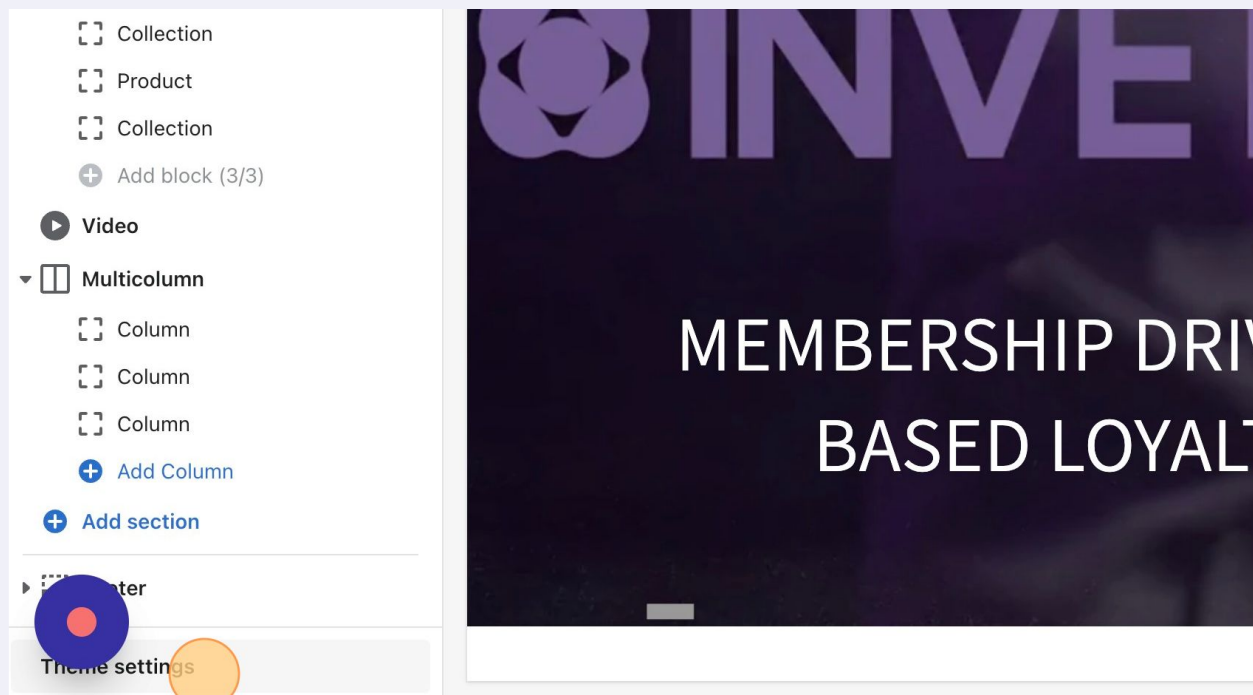

2 Click "Online Store"

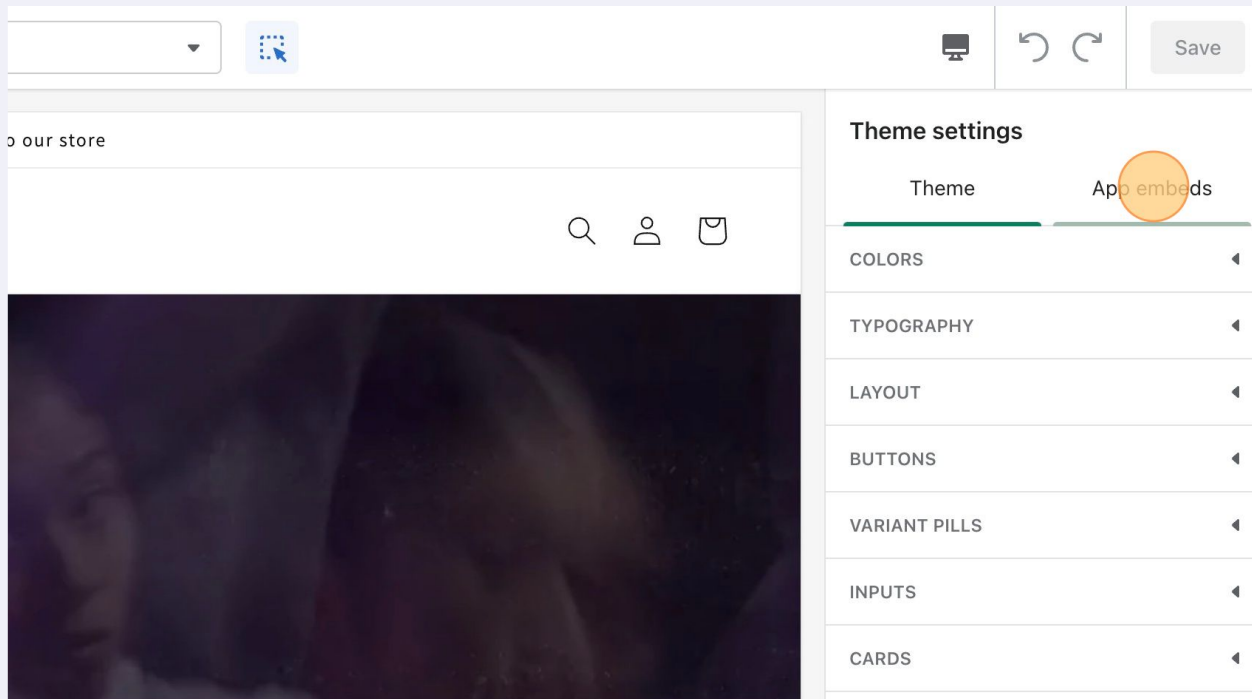

### 3 Click "Customize" next to your current live theme

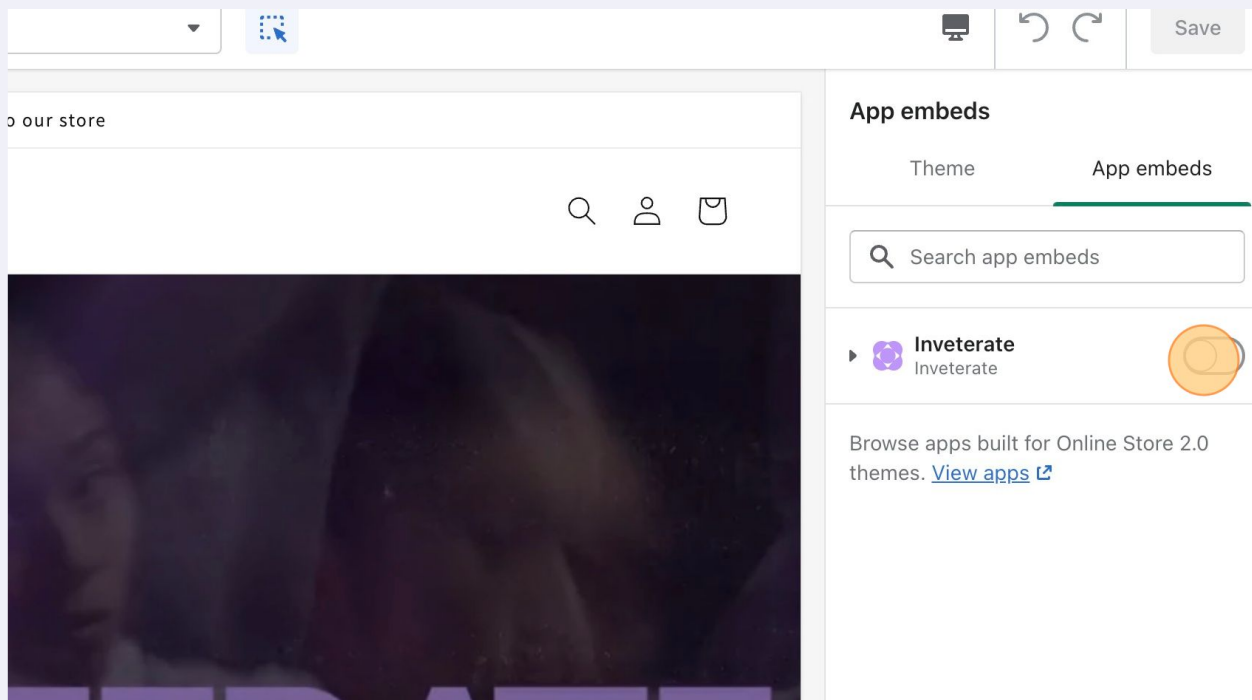

### 4 Click "Theme settings"

5 Click "App embeds"

6 Click the toggle next to Inveterate

7

Click "Save"

The screenshot shows a web interface with a top navigation bar. On the right side of the bar, there is a green 'Save' button with a white outline, which is highlighted with a yellow circle. To its left are icons for a monitor, a refresh button, and a back button. Below the navigation bar, the main content area is split into two columns. The left column shows a preview of a store page with a dark image and icons for search, user profile, and a shopping bag. The right column is titled 'App embeds' and has two tabs: 'Theme' and 'App embeds', with the latter being selected. Below the tabs is a search bar labeled 'Search app embeds'. Underneath the search bar, there is a section for 'Inveterate' with a purple icon and a blue toggle switch that is turned on. At the bottom of this section, there is a link that says 'Browse apps built for Online Store 2.0 themes. [View apps](#)'.
